PANADERÍA OBANDO

Panadería Artesana Obando was born in 1965 as a small bakery and now has become an industry leader thanks to technical innovations in our production processes, never losing our traditional essence as artisans.

Nowadays, from our factory in Utrera, we currently distribute on a daily basis to thousands of customers throughout Spain, as well as having expanded our reach to markets in Europe, North America and Asia.

TRADITION

The preparation of our products maintains the artisanal essence that has defined our work for over 50 years.

Every day, our team of bakers produce our picos, regañás and mostachones with the traditional recipes whose authentic texture and flavour have become our hallmark.

QUALITY

Our raw materials are the primary value that set our products apart.

We use grains that come from our own sustainably cultivated farmland, which guarantees that we always work with natural ingredients, in addition to using no additives or preservatives in the preparation of our products.

INNOVATION

Our traditional philosophy is not at odds with our adapting to the times. This is why we have been renewing our production processes through technological innovation and our investment in R&D, which has enabled us to respond to the ever-increasing market demand with our novel products.

FROM UTRERA TO THE WORLD

Renowned throughout Spain for our bakeries and confectioneries, our town is home to companies like Panadería Artesana Obando who have, over the years, developed quality products steeped in tradition.

GOURMET RUSTIC PICOS
